PROFILE

Web developer who builds responsive, user-friendly websites with HTML, CSS and JavaScript. I learn by building real projects, such as a cafe website with online ordering, and I pay attention to both design and how a site works. I am looking for opportunities to build professional websites for small and large businesses while I keep growing my skills.

SKILLS

- HTML, CSS and JavaScript
- Responsive web design (phones, tablets and computers)
- Git and GitHub
- VS Code
- Microsoft Excel (spreadsheets and data processing)

PROJECTS

Bean & Brew Cafe Website
A responsive cafe website with a menu, cart functionality and WhatsApp ordering for customers. Built with HTML, CSS and JavaScript.
Live: https://joshuaobiorah99-maker.github.io/bean-and-brew/

Unit Converter
A web app that converts between units, built with HTML, CSS and JavaScript.
Live: https://joshuaobiorah99-maker.github.io/unit-converter/

Personal Portfolio Website
A multi-page portfolio with smooth animations, a working contact form and project showcases. Built with HTML, CSS and JavaScript and hosted on GitHub Pages.
Live: https://joshuaobiorah99-maker.github.io/Joshua-Portfolio/

EDUCATION

Diploma in Data Processing
Lagos City Computer College | Expected December 2026

SELF-TAUGHT TRAINING

Web development fundamentals (HTML, CSS and JavaScript) through Mimo and hands-on projects
